To whom it may concern,

I am writing to express my interest in any internship opportunities that your company provides for a Computer Engineering student. With my desire to continue my growth in learning and experience as a Computer Engineering student, I am confident in my ability to contribute towards your team.

I am currently a second year student at Texas Tech University part of the Whitacre College of Engineering. I am pursuing a Bachelor of Science in Computer Engineering with a minor in Robotics. Furthermore, I am employed by the Texas Tech Hospitality Services where I am gaining experience in communication and effective time-management by learning how to balance a healthy school/work/life schedule. Additionally, I am involved in various Engineering based organizations that allow me to gain experience in the Engineering Design Process, team-work, 3D Cad Experience, and programming. Prior to my Freshman year in college, I also gained Engineering experience through the NASA Hunch Program in high school.

I have attached my resume for your review. Thank you for considering my application. You can contact me at nicolascapetillo2023@yahoo.com. I am looking forward to hearing back from you and the opportunities to discuss how my skills and experiences align with the needs of your team.

Sincerely,

Nicolas Capetillo
